THE QUOTATIONS GAME

Quotations have long since been an inspiration to many people: it is the art of saying much without many words. They can help you become more aware of the way you look at certain topics or at life as a whole. The aim of this game is to open up discussion concerning peoples' personal views on subjects such as *communication*, *change* or *leadership*. With the help of provocative questions, this game also encourages participants to link these subjects to their own experience.

Ideal for Coaches, Trainers, Counsellors or Mentors, The Quotations Game consists of 144 cards. On the face side of the cards is a quotation and on the back a question linked to it. The quotations are divided over six themes: *leadership*, *communication*, *giving meaning*, *change*, *personal development* and *relationships*. Also included is an eight page leaflet explaining the game and how the cards are grouped plus outlines for five methods of play to get you started.

Great value through our own website at only £35 each + p&p & VAT
